

Indisputable EVIDENCE Fiona Barnett is an Operation

It is a dangerous operation with multiple bad actors, that is being exposed. This document is in the hands of the U.S. government as well as multiple other agencies and individuals.

Author: A bloodhound

WHO'S NAME IS MISSING FROM THIS HEADSTONE?

Fiona Barnett claims that Helena Holowczak is her grandmother who sex-trafficked her from the age of 2 up until 13 years old, along with her step-grandfather Peter Holowczak, who she sometimes refers to as Poitre. She states that Peter and Helena often took her to be sexually abused by members of the Nazi community who had settled in an area south of Sydney, which ran from the Sutherland Shire to Wollongong. These are allegedly the parents of her alleged father Frank Holowczak, aka Mitek Frank Holowczak, aka Mitek Rylko. Fiona Barnett also alleges she has six siblings and two daughters, Kasia and Sophie.

Who's names are missing from this headstone? **ALL OF THEM.** Hundreds of pieces of indisputable evidence, with direct links and screenshots are in this document below. There are multiple bad actors involved with this operation. This is not a single woman behind all of this.

IMPORTANT: The purpose of this evidence is to expose the operation for what it is – destroying victims lives, as well as advocates for children, to create chaos, division, and an army of doers, plus much more. DO NOT attack Fiona’s alleged family members, and most certainly DO NOT attack the real Holowczak family. Most importantly, it would not be advised to attack the other players involved. INSTEAD, EXPOSE IT ALL.

Quote from Fiona Barnett: “Until I reached 15 years of age, my family and I were told that Poitre Holowczak was my biological grandfather. From the age of three until 11 years, I spent countless weekends and school holidays at the Holowczak’s home at 14 McAlister Avenue, in the Southerland Shire suburb of Engadine. When I was aged 12, my family moved to northern NSW. Thereafter, I occasionally stayed with the Holowczaks during school holidays.”

That is a very important quote to keep in mind while reviewing her claims throughout the years in the timeline below.

For years, the Fiona Barnett operation has been seeding the minds of thousands of people in Australia, but with a focus on the United States of America, and for years, people have been buying into it. While others have spotted the obvious tactics, no one has been able to break down this operation, and reveal what it truly is. Some have attempted to call her out or question her, but the operation has an army of attackers that go after those that dare, while Fiona deflects, and ultimately ends in pure projection, informing all followers that the individual is a CIA Luciferian pedophile. Understand, this was a very well thought out plan from the beginning, going back nearly a decade, and orchestrated by MANY involved. It has escalated to the point of reaching the masses, which was their ultimate goal – to create chaos, while distracting from true victims, and attempting to obliterate those trying to help, all while building an army of followers that do as they say, so as to assist with their destruction.

You will learn that Peter and Helena Holowczak are not Fiona Barnett’s grandparents. They hijacked a dead couple and built a story around them, while destroying the couple’s real family. They fabricated the home in which the grandparents lived, and Fiona allegedly spent years at, while being abused and witnessing a murder of a child. Fiona stood in front of this alleged home for 5 long minutes in the documentary, while describing in detail all of the abuse and other events that took place in each nook and cranny. Ironically, that wasn’t even Peter and Helena’s home. You will find this and countless other pieces of evidence throughout this document.

Despite the fact many are “woke”, unfortunately, many of those folks have been duped by this operation. That ends now. That ends the moment you finish reading this document, with indisputable proof, that this is in fact an operation. If you care about true victims, and you care about the United States of American, you will make certain this document is seen by millions, and that no one is ever duped by these irreprehensible people ever again.

How serious is this? All of this has been turned over to the United States Government. If you were a follower, you will be very angry when you learn the truth. Use that anger to flood all of Fiona Barnett platforms with TRUTH until they pull the plug on this operation. Their army is nothing compared to the Patriots in this country. They will no longer get away this.

We will begin with Fiona’s claims documented below in the timeline, per dates she herself stated. But first, if you have been a strong believer in Fiona, let yourself off the hook before you read this. Do not feel it was wasted time and energy. Do not feel guilt or shame. They ran a pretty good operation, with a woman who has the ability to act, during a time that victims of real tragedies are coming forward. It happens. More importantly,

many of the stories Fiona claimed to be hers, were in fact stories from other victims that truly did suffer through these experiences she hijacked.

The information you read below will be rather shocking to most, because those non-believers thought she had a mental illness, was MK-Ultra'd, or simply batshit crazy. None of these are the case, and no one has ever gotten to the real truth, until now. This was all very well thought out, planned, and orchestrated, with a fair amount of efficiency, by multiple people.

Pay very close attention to the words in this quote from alleged husband Jon Barnett at 12:20 in part 2 of Fiona Barnett's documentary:

“The effect it has for a lot of people when they meet her, actually there are two effects. One is this mirror effect. When people get to know her, they can't play their games with her. So for people who like to play games, for people who are trying to present themselves as one way when they are not really that way, they will find themselves very uncomfortable with Fiona. And Fiona will pick that up, and she doesn't like it. She won't say, “I don't like it” to the person, but she doesn't like people who do play games... people who are pretending to be something they are not. And, her reaction to that is not anger, or whatever, but she'll provoke them. She'll say something and put them in a situation where they have to look at that, what game you're playing. They end up feeling very awkward.”

In Fiona's own words from her documentary, articles, blog, and video interviews – she has alleged the following:

- Witnessed 30 murders specifically, plus “multiple murders” at each of 3 different locations
- Raped 8 times specifically, plus “multiple times” by several different people over a 13-year period
- Witnessed and was put through countless satanic rituals over a 13-year period
- Suffered a forced, ritual abortion
- Military training began at age 6 at Holsworthy in Australia, and was completed in the U.S. at age 14 by Michael Aquino
- And much, much more

See complete timeline below, followed by extensive evidence to the contrary, with indisputable, impossible to spin, documentation.

TO FIONA & GANG:

THIS ENDS NOW. Tell your powers that be, they would be wise to pull the plug on this operation immediately. To translate: shut down your website, facebook, twitter, YouTube accounts, and halt this operation. This has all been turned over to the United States Government. Eyes are on you. There are archives of all evidence located in multiple states. If your army goes dark and resurfaces, that would not be wise. You will no longer take advantage of human beings, take away focus from true victims, send your army of shills to attack people with false allegations in order to destroy and divide this country, attempt to diminish solid journalists and those advocating to stop child sex trafficking and abuse, or request money be sent to those working with you. **THE GIG IS UP. TEAR IT ALL DOWN.**

TO JOURNALISTS, REPORTERS & YOUTUBER's:

Many of you have regurgitated her stories, written at length about her experiences, and produced countless videos and interviews. To you I say this: do not fret. Use the information in this document to create new material telling the truth and exposing this operation for what it is. Go into your old videos and interviews of her and add a small graphic over them stating she is part of an operation, and link your new videos below them. Remember, she not only hijacked a dead couple, she hijacked other people's stories. Some of these experiences are real to the victims that suffered through them, while others have been gravely exaggerated by Fiona Barnett. Do not allow this to diminish those that truly suffered. She herself is part of a bigger operation, and did not experience the stories she claims.

TO BE CLEAR: 30 McAlister Ave., where the Holowczaks actually lived, was torn down awhile back, along with 2 other homes. Lots 26, 28 and 30 were all sold, and TLC Childcare Centre was built. This place was then [auctioned off](#) on October 25, 2016 to [St. George Montessori Engadine](#), who had a grand opening on Saturday, July 22, 2017. By purchasing all 3 lots that sat on the corner of McAlister Ave. and Woronora Road, the address became 252 Woronora Road.

Additionally, 14 McAlister was sold on May 6, 2013 which is the exact same month Fiona began dropping her story on [David Icke's forum](#) under the name **Kate Gardiner**. More about this further down. The documentary is dated July 14, 2015 on the shot where Fiona is standing in front of the house, sharing her alleged memories in explicit detail. In 2017 the home was torn down and a new home was built.

252 Woronora Road, Engadine NSW

Medical / Consulting 1m² Sold on 25/10/2016, \$2,065,000

30 McAlister was the corner house, which google cannot locate due to it being torn down, along with lots 26 & 28, as shown in links above. This is 8 houses away from where Fiona claimed they lived.

Screenshots from the Documentary, where Fiona claims all of the terrors that happened to her at 14 McAlister Ave. where Peter and Helena Holowczak allegedly child trafficked her, and her alleged step-grandfather hung himself in the chook pen behind the garage. Watch the documentary.

1971 – 1981: Alleges she was sexually abused and trafficked by step-grandfather Peter (Poitre) Holowczak and Helena Holowczak. She ONLY lived there on some weekends and school holidays. Lived at her mom's house over 2 hours away during the week. According to the end of part 2 of the documentary, the first abuse event happened at 22 months. Aside from abuse by Peter, she also claims to have witnessed a toddler murdered in the garage at their home at 14 McAlister Ave, Engadine NSW. She stood in the front yard of this home for over 5 minutes in her documentary, describing in great detail, incidents that happened there.

1972 – 1985: Alleges that Leonas Petrauskas's had a medical clinic, on the corner at 1107 Old Princess Highway, Engadine NSW, just down from alleged step-grandfather Peter's home. Claims every person employed at the clinic were involved in ritual abuse of herself and other children, crimes, murders, and false medical reports to cover for crimes they committed, throughout the 1970s and 1980s.

1972 – 1985: Alleges Antony Kidman raped her and performed satanic rituals.

1974: Alleges she was raped by Prime Minister Bob Hawke in a zucchini patch, at a bbq, in a suburban Canberra backyard.

1974 – 1979: Alleges she was subjected to rape, torture, and electrocution by cattle prod type instruments at Holsworthy Army Base & Lucas Heights nuclear reactor, for the Jason Project, by John Gittinger and Dr. Antony Kidman, with approval from Australian gov. Note: Gittinger born Nov 1, 1917, died Oct 19, 2003. He was part of the CIA from 1950 – 1978.

1974 – 1983: Alleges she had a surrogate pedophile mother named Grande Dame Veronica, who was her tutor and mentor. In 1983, Veronica opted to be sacrificed at a young age, ritually murdered on the altar at St. Mary's Cathedral in Sydney City, because she was a victim forced to turned perpetrator. She lived at private living quarters at Sancta Sophia College at Sydney University. Then Fiona succeeded her as Grande Dame.

1974 – 1984: Alleges she was sexually abused at Dr. Leonas Petrauska's and the "red-headed woman's" home at 117 Fairview Ave., Engadine, NSW. States his home is no longer there, and a new home has been built.

1975: Alleges she began full Military training and MK-Ultra began at Holsworthy Army Base – at age 6. The same year during which she alleges multiple other events took place, including being raped by Ted Turner at Disneyland in the U.S.

1975: Alleges at Royal National Park, Sutherland Shire NSW she witnessed tons of children murdered there. Claims she saw a guy tied to 4 different vehicles, they pulled him apart, and his body exploded. Also alleges human sacrifices to children, hobos, and people they abducted were murdered and buried there.

1975: Alleges she saw them kidnap a 12 yr old girl named Michelle, with dark hair in a side ponytail, dressed in a red t-shirt and white shorts from a main road in Engadine. Both victims were murdered. The Engadine policeman and the GP covered for both deaths. (referencing the boy she saw murdered in 1984). In part two of her documentary she states, a murder took place at "the Weir" Woronora River by a popular swimming hole in the 70s. It was a moonlit night when she saw the 12-yr-old abducted on either Heathcoat Rd or something that looked a lot like it. She was wearing red and white and had long brown hair. She knew them. Fiona says she was in the back right passenger side of a car and the girl jumped in the back left. They handed her laced candy. A group of men circled around her in robes and a lot of them were priests from boys town. They hung her to death, then sodomized her dead body while the men stood around masturbating, and they made Fiona watch all of this. She was afraid they were going to make her swim in the murky water where she thought they dumped the girls body, and til this day she won't swim in water where she can't see. Her and her family used to go swim there all the time. She goes on to claim, the girls body was transported to Holsworthy Army Base and they went through a side gate at Heathcoat road where they met Chan, who seems a lot more powerful than someone who was just in the reserves. While climbing back up from the river, she stated, "I just remembered, as we were

climbing up the hill, I forgot to tell you about Steven. He raped me right on that ledge.” She claims her alleged grandfather Peter Holowczak was there too and was one of the ones raping the other girl. While they were doing all of this, she claims this guy Steven raped her violently and repeatedly. It was an unsanctioned rape, and he paid for it later on with his life, when she was about 14 (1983). He was tied to the stake and bashed to death at the dog breeders house. The girl was frozen on a meat hook at Holsworthy.

1975: Alleges Ted Turner, CNN founder, raped her at a Disneyland pedophile party.

What does she compare her ex, Ted Turner, to? Podesta? We all know the damage he's done to children. Most importantly @FionaBa47662575 or are we suppose to pretend we don't know he's a #Pedo? Anyway, Jane Fonda is despicable and nauseating at best.

1975: Alleges she was at a Luciferian Halloween ritual and someone named Ivan Milat was there, and some kid was put into a meat grinder at the dog breeder’s property. She then states she was thrown into the pool of mince. This 2014 article that speaks of Ivan Milat as a serial killer, is likely where this story was derived from:

This is Fiona’s story and video: <http://archive.is/SJsLx>

1975 – 1984: Alleges at St John Bosco Catholic Church, on the corner of Waratah Rd & Banksia Ave., Engadine, NSW, they performed satanic rituals. She observed many sacrifices. 4-yr old girl named Chloe (in 1983) – green eyes, dark bob haircut – daughter of the “red-headed woman” who was at the cemetery. After her death, her mother went insane and was bumped off because she became a liability.

Also, during this same time frame, she alleges at Regina Coeli Catholic Church – Bevery Hills, Sutherland Shire, NSW, she had seen multiple people murdered there during satanic rituals, and claims police officers and lots of priests attended regional ceremonies.

All allegations and incredibly detailed memories listed above, only take us through age 6. Continue with the timeline below and evidence that follows.

1977: Alleges she was taken to Waterfall Consumptive Cemetery (Garrawarra). Dr. Leonas Petrauskas was there. Inside a crypt in the ground there was a decomposed body that they lowered Fiona down into, on top of a dead body. There were 6 people there, dressed in robes, and chanting. She was naked. It was a rebirth ceremony. She claims she ran out of oxygen and died, then woke up in the ER of Sutherland Hospital. The red-headed woman lover of Petrauskas was there, and Dr. Petrauskas released her from the hospital. She had a near death experience and saw light at the end of a tunnel. She painted this tunnel on her bedroom wall at her mom's house at 40 Ourringo St., Budgewoi, NSW (parcel: DP758175), which is located 2 hrs and 20 min away from her alleged grandparent's house that she went back and forth to every weekend, with no mention of where her other 6 siblings may have been during this time.

1977: Alleges at Kurnell Beach, NSW, she was taken there by Leonas Petrauskas and was told to dig up a body. Claims she dug up the body of a 5-yr old with blond hair. A prominent pedophile politician was there and was into necrophilia, and he wanted Petrauskas to cover it up for him. It was to traumatize her. She claims she overheard a discussion between the politician and Petrauskas about how they were going to fabricate the death of the child. Talk of an octopus sting. There was an article/letter written in 1995 that she has a copy of, that had to do with the death of the stinging of a 5-yr old girl that got poisoned by a cone fish.

1978: Alleges at Caltex Oil Refinery in Kurnell NSW, she was brought there when she was 9 (documentary part 2), with a group of about 10 children. They were placed in front of one of the factory furnace ovens, and one by one they threw the children in the ovens. They made her think she was going to be next, and she tried to stop them from killing a good friend of hers that she grew up with. She claims these are kids that were bred in secret for this purpose. It was to traumatize her.

1978 & 1979-81: Alleges at Sydney University, Great Hall, Camperdown NSW, she witnessed the fileting of a blond boy about 5 years old. Antony Kidman and 4 other men dressed in multi-colored robes were there. She tried to stop the ritual when she realized what was going on. They crucified him, fileted his skin, peeled it back, strung him up over the stage of the Great Hall. Nicole Kidman was sitting down in the front. Fiona ran up and tried to stop them, and Bruce Spence put his foot on her neck to stop her. A number of university staff were involved. She was then taken into a room on the upper floor of the chemistry lectures, and they did something to her there. Then, she was taken into a medical basement and subjected to unethical practices and Hope Michaelson was there. She allegedly went to school with her later at Bond University. (documentary part 2)

1980: Alleges she witnessed Queen Elizabeth preside over a Luciferian ritual at the main Church of England Cathedral in Sydney.

1980: Alleges at St James Church, 173 King St, Sydney NSW, there was a row of children with silver cord wrapped around their necks connecting them. This is all she can remember from this event.

1980s: Alleges she reported some of these crimes to health practitioners, none of whom would come forward to the police

We have now completed all alleged events through age 11. Continue below.

1981: Claimed in front of reporters in 2015 (documentary part 1), that she witnessed a girl named Samantha, with down syndrome and wavy long brown hair, be murdered in 1981. Claims the girl was 9-years-old.

1981: [Alleges](#) her family moved to northern NSW at age 12, and she occasionally stayed with the Holowczaks during school holidays.

1983: Alleges at Kurnell Beach, NSW, that a nurse who worked with Leonas was used as a honey trap for a surfer. She promised him sex. The guy was drugged. She watched him ritually sacrificed to Moloch. Claims there was a fire ceremony and they burned him alive. States they get local police and Dr.'s like Petrauskas to cover for them. She wrote to NSW coroner and told them "her researchers" just found out the true identity of "Dr. Mark" and that every death certificate he ever signed needs to be investigated. They wrote back saying the coroner has no jurisdiction over these matters unless referred by the Commissioner of Inquiry or the NSW Police Force. (documentary part 2)

1983: Alleges to have undergone a ritual abortion & Baal baby sacrifice in a tunnel, beneath Engadine Boys' Town, by Dr. Leonas Petrauskas and his daughter.

1983: Alleges she witnessed the murder of a girl named Chloe, 4-years-old, with brown straight cut hair.

1983: Alleges she finished military training at Dulce Military Base, in the U.S., under Michael Aquino.

1983: Alleges she was made queen bee of the diocese at Regina Coeli Catholic Church – Beverly Hills, Sutherland Shire, NSW, at age 14 (part 2 of documentary). She has also witnessed Jacki Weaver, John Williamson, and Kathy Lette at pedophile ritual gatherings in Sydney. Kathy was based at this church.

1984: Alleges she was raped by actor Bruce Spence at Bathurst City Hall when 15, but in the documentary she stated it was on October 6, 1985, which means she would have been 16.

1984: [Alleges](#) she saw the wife of an Engadine police officer lure a 15 year-old boy, with sandy hair, dressed in a blue billabong t-shirt and board shorts, into a car at Cronulla Beach. The boy was murdered at a property on the old Illawarra Road near Menai suburb, where Doberman dogs were bred and trained.

OCTOBER 27, 1984: Alleges she was raped by John Bell, in the company of Antony Kidman, on the eve of her 15th birthday. Antony allegedly tied her to a chair and beat her in front of Nicole Kidman (who smirked), at the Kidman's home, located at 16 William Edward St, Longueville NSW (located one hour NE of Engadine). Yet, part 2 of the documentary states it's October 27, 1983. She was dropped off by Petrauskas. The backyard was full of actors, theater people, Bruce Spence, directors, etc. After everyone left the party, she was taken in the back lounge room and assaulted by Bell and Kidman and then watched them engage in homosexual sex. She was then taken out to pool and thrown in naked. Kidman got in and held her elbows together, then Bell would stomp on her head and hold her under the water until she almost drown. She goes on to allege that she woke up the next day tied to a chair, naked in a basement, and he kept hitting her, while Nicole sneered at Fiona because she didn't like her. Mrs. Kidman washed and dried her clothes, she was dressed, and Dr. Mark picked her up.

I was also raped by Shakespearean actor JOHN BELL, in the company of Dr Antony Kidman, on the eve of my 15th birthday, after a Nimrod Theatre post production party held at Kidman's house that was attended by the Shakespearean play's well-known cast. The following morning, Kidman tied me to a chair and beat me in front of his daughter NICOLE KIDMAN who stood there and smirked at me, with her arms crossed.

<http://archive.is/Jbec3>

OCTOBER 6, 1985: Alleges at Bathurst City Hall, actor Bruce Spence raped her on the alter on the stage. Then, 10 children were drugged, raped and murdered by being decapitated with a large sword, one at a time, plus a pregnant woman's baby was cut from her womb, cut into pieces, and eaten by everyone. A decapitated head was put in front of Fiona's face and she was forced to take a bite. Dr. Leonas Petrauskas took Fiona to this event, which Beazley Senior and Richie Benaud presided over. She claims that former NSW police commissioner John Avery was there too. They later raped Fiona in front of a large crowd that included numerous priests and police. She claims that once this was all over, everyone broke into an orgy.
<http://archive.is/l8kc4>

1985: Claims she began disclosing the abuse to health professionals, but had already stated that she began doing that when she was 12. In 1985, she was 16 years-old. None of them ever reported any of the allegations to the police.

Another experience Fiona alleges happened to her, but does not give specific dates:

“I was trafficked to the USA, to Bohemian Grove where I was drugged & raped by the Rev BILLY GRAHAM – Richard Nixon's pal, in a pink bubble room. I was also made to dress up like a teddy bear and play hide, seek & rape. I also witnessed the ritual murder of a person by politicians dressed up in robes. I was taken via Sydney airport, in a crate like an animal. On the way home I was drugged, raped and beaten at an exclusive, after hours, pedo gathering at Disneyworld.”

We have now completed her alleged experiences through age 16. We have already established Fiona Barnett has no relationship to the Holowczaks, and that Peter and Helena Holowczak lived at 30 McAlister Ave. NOT 14 McAlister Ave. where Fiona claims she spent all of her time with them and was sex trafficked by them. The evidence, screenshots, and all links follow below, including the real Fiona family and the real Holowczak family.

APRIL 2, 1991: Alleges that Peter Holowczak (alleged step-grandfather), died in 1991 by hanging. Her alleged mother Dawn Mitchell also states this in the documentary. This is a newspaper clipping from 1991 indicating that Peter Holowczak, from Engadine (the only Peter Holowczak in that town), died on April 6, 1991 (the exact year they claimed), and was buried at the Woronora Lawn Cemetery. It's a beautiful cemetery, with a very informative website, including plot information, maps, and photo galleries of the actual headstones. His headstone states "Missed by his sons, grandchildren and all who knew him." Helena's is much more informative and specific, as you will find, further down the timeline in 2011.

1992: Fiona Barnett's alleged therapist Nerida Saunders, who did an alleged interview with Shane Nagle, to state that Fiona is totally sane and highly intelligent, started her business in 1992: Brain Mind & Memory Institute. The staff and background are further down.

MID 1996: Alleges she boarded a London-bound jet with a 2-yr work visa. Doesn't say what she did or how long she stayed.

2006 – 2007: Fiona began attending Bond University for postgraduate psychology studies.

2009 – 2010: She again attended Bond University to continue her studies in psychology. Coincidentally, Nerida Saunders, her alleged therapist who claimed she is sane, was also attending in 2010, taking psychology related courses for her PhD, as further down.

OCTOBER 18, 2011: Alleged grandmother Helena Holowczak, passed away. NOTE the names on her headstone: She is mother to John and David. She is grandmother to Daniel, Justin, Claire, Damian and Renee. Great grandmother to Jackson. She is buried next to her beloved Peter, Fiona's alleged step-grandfather. Yet, Helena has absolutely no relation to Fiona or Fiona's alleged dad, Mitek Frank Holowczak, aka Frank Holowczak, aka Mitek Rylko. Both, the Holowczak family, who Fiona and gang have destroyed, and Fiona's family – aka the Holowczaks aka the Rylkos, are broken down in this document after the timeline concludes. NONE of Fiona's family members match Helena's headstone. Further evidence from the cemetery is documented as well.

MAY 6, 2013: 14 McAlister Ave., Engadine NSW (alleged grandparents home) was sold. It was only on the market for 5 days. The financials/closing took place on June 13, 2013. In July of 2015, Fiona filmed in front of 14 McAlister Ave. as being Peter and Helena Holowczak's home. In 2017 the home was torn down and a new home was built. Yet, this home was NOT the Holowczak home at all, as seen above in this document. They in fact lived at 30 McAlister Ave.

MAY 2013: Fiona began dropping her story on [David Icke's forum](#) under the name **Kate Gardiner**.

She states she felt safe, yet on [David Icke's forum](#), she stated the exact opposite: "unbeknownst to me". **She began her stories under the name "Kate Gardiner", and later changed it to Fiona Barnett.** She also stated in an [archived "About" page](#), that is no longer accessible on her website, that her husband is related to the Gardiner bloodline. In Icke's forum, she links her pedophiles down under site upon it's conception, stating that she wrote all about the Gardiner illuminati bloodline.

Memoirs of an australian satanist

In case anyone is interested, I would like to summarise my memories of being ritually abused by an elite Sydney pedo/SRA ring. I never underwent hypnosis; instead, my memories emerged spontaneously after my pedophile step-grandfather, Peter Holowczak (deceased), was found hanged to death. My grandmother, Helen Holowczak (deceased), said some men arrived on a weekday morning, sent her shopping, and when she returned she found Peter hanging dead in their chook pen at 14 McAlister Ave, Engadine, Sydney.

I was born Holowczak in Sydney in the late 60s. Helena and Peter introduced me to the pedophile ring. They were Polish immigrants who had worked at joined the great wave of Nazi war criminals who were granted asylum in Australia. I was raised in their Nazi flavoured religion of Mithra worship. I attended gatherings with many Slavic immigrants who settled in the Southern Sydney area.

A large purple banner was erected at these ritualistic gatherings. This featured a large eagle over an encircled hexagram/pentagram overlay. A symbol sat in each corner of the banner: a serpent entwined around a pole (medicine), a triangle divided into 3 triangles (trinity), the trident (psychology), and a line penetrating a circle, like a lollipop (Cleopatra's needle, genetic engineering, cloning).

I have posted a picture the Seal of Solomon ritual banner here:

In case anyone is interested, I detailed my experiences at pedophilesdownunder.wordpress.com, under 'Memoirs of an Australian Satanist'. 13 ch/blogs are up, and working on the rest. I write about infiltration of our schools, police force, universities, Corrective services, the Gardiner Illuminat bloodline, relevance of IQ testing to the illuminati, etc. Also would like others to contribute their stories to help expose this in this country.

Fiona's [Article](#) on Independent Australia (a left-wing news source who vouches for Fiona's authenticity). Notice she states in her article "I felt that it would now be safe to report my experiences." So she only reported them AFTER Tor Nielsen did, because it made her feel safe. Yet, in her post on Icke's forum, she claims, "unbeknownst to me, fellow victim Tor Neilsen reported similar Bathurst crimes." So which is it?

First attempt to make a police statement

I first came out in 2008, in response to [the publicity surrounding](#) similar abuse allegations experienced by fellow victim Tor Nielsen and many other students at the private Catholic boarding school [Saint Stanislaus College](#) in Bathurst, NSW.

I felt that that it would now be safe to report my experiences to the NSW police and be taken seriously after reading newspaper articles, like [this one](#) in the *Herald Sun* (August 27, 2008):

David Icke forum: <http://archive.is/KkoFE>

I recall a ritual that took place under the guise of the Bathurst 2000 car race. I reported this incident to the NSW Police in 2008. Unbeknownst to me, fellow victim Tor Neilsen reported similar Bathurst crimes to the NSW Police. As a result of his reporting these crimes, Tor was harassed by the NSW police, Sydney health workers, Sydney psychologists and psychiatrists. WA test results reveal these people poisoned Tor with a drug that induced psychosis. NSW police

It's interesting that she mentions the importance of IQ testing to the illuminati, being as herself, her alleged husband, and her alleged psychologist all push and enforce how highly intelligent Fiona is. Her alleged psychologist, Nerida Saunders (much on her below), goes so far as to state this:

“Fiona possesses a robust cognitive profile that is highly adaptive. Her cognition was assessed utilising the IntegNeuro and elevated scores were seen across the spectrum. To further support this she has a fast alpha peak of 11hz as noted in her QEEG indicating high intelligence.”

In this segment from the same Icke forum post, she claims her high school friend found a former St. Stanislaus student dead.

Coincidentally, a former St Stanislaus student, a lawyer whose son still attended the school, was to be a witness at the St Stanislaus hearings; he was found kneeling, hanging by his necktie from a bookcase in the basement library of Frederick Jordan Chambers Sydney. My highschool friend found him dead. His death was initially treated as suspicious. The man had half an hr earlier been seen happily working on a case.

MAY 2013: She allegedly [met with](#) a male journalist who wanted to report her story.

2013: She reported Bond University to the Royal Commission into Institutional Responses to Child Sexual Abuse. She had attended the university in 2006-2007 and 2009-2010, and claimed her teachers were sexually abusive toward her. This is her exact quote: “During my studies, I was sexually harassed by a Bond University staff member. My experience of sexual harassment occurred in response to the disclosure of my child sexual abuse. The same lecturer tricked me into sleeping in her bed at a student party, described my breasts as “*magnificent*”, before grabbing one and massaging it in a sexual manner.”

She also describes herself as highly intelligent, while her husband describes her as being able to spot liars and manipulators, and her alleged psychologist states the following in her “[certified sane](#)” interview on Fiona’s website:

“Fiona is also highly intelligent and has insights that are far beyond those of the average citizen. Her ability to think issues and events through and make sense of the bigger picture and where people are coming from is uncanny.”

In 2006, Fiona was allegedly 37-years-old, attending a “student party” where she slept over, and allegedly was duped by a lecturer from Bond University who “tricked her” into sleeping in her bed. Chew on that.

In addition to this, Fiona makes this claim on her site: “[I have had](#) court training and experience as a forensic psychology student and as a parole officer in two states.”

While I can perhaps understand a lawyer's need to test out a client's potential to withstand cross examination in a court, what the Aichen barrister did to me far surpassed anything of that purpose. I have had court training and experience as a forensic psychology student and as a parole officer in two states. I had also previously excelled under cross examination in a personal case. What the barrister did was plain derogative abuse. I effectively paid Aichen Chambers \$7,700 to verbally and psychologically abuse me for four hours.

JUNE 25, 2013 Fiona injected herself into a real case, and reported on a teacher, Gary Willis, about an 18-year spree he had at 3 different schools, pertaining to sexual abuse of children. In her article, she continuously refers to a Dawn Mitchell as a "woman" who was trying to help other moms with this case, but she never states that Dawn Mitchell is in fact her mother. She also states that her younger sister (Emma) attended Centaur Primary School in Banora Point, they grew up in Terranora, and her sister almost became one of his victims. Fiona [shares this story](#) on Independent Australia, while Sue Gardiner at Tweed Daily News who has co-authored articles with Alina Rylko, aka Alina Arylko, aka Alina Derevyanko, [told her story](#) three days later. One month later, Tweed Daily News followed up with yet [another report](#). All of this, setting the groundwork to paint her as an advocate for children, for the upcoming documentary. FYI – Alina Rylko is a key actor in this story. Lots on her below.

Sue sometimes co-author's articles with Alina Rylko, aka Alina Arylko. Note authors listed below. Both Sue and Alina wrote for the Northern Star, The Chronicle, and Tweed Daily News. Alina had additional writings and MSM connections as well.

Earlier this month Terranora resident Emma Rylko took time off her public servant role to sail aboard the STS Young Endeavour as part of the International Tall Ship Festival.

As a returning crew member in the Melbourne to Hobart leg, Ms Rylko helped navigate the ship over a journey through the notorious Bass Strait.

“Conditions were cold, wet and windy... the West Coast of Tasmania is renowned for being tough and it lived up to its reputation,” she said.

This was her second time on the STS Young Endeavour. In 2012 she took

2013 – 2015: Fiona wrote several articles that were published in the Independent Australia (owned by David Donovan). A left-wing paper which includes writings from Open Democracy. More on this further down.

JANUARY 2014: Fiona moved into 26 Laura Street in Banora Point. This was made clear when interviewed by a local news source about the street needing a traffic island. (This info is below.) The Barnett family was covered quite a bit by local news sources they were affiliated with, one in particular...not too much to tip things off, but just enough to create a family dynamic in the community for researchers to be duped. One story to establish the husband and one daughter, another story to establish the mother, one story to establish both daughters together, another story to establish the “couple”, two stories to establish the “psychologist”, one story to establish her father, another to establish her sister Emma, and finally.... Several stories to establish her child sexual and ritual abuse allegations. All of these articles were published AFTER Fiona began dumping her story across multiple social media platforms. There are no articles on these alleged family members prior to May 2013.

JANUARY 6, 2014: Alina Rylko, aka Alina Arylko, aka Alina Derevyanko wrote an [article](#) about Fiona’s alleged daughters Kasia and Sophie. Note: Alina used Rylko as opposed to Arylko as the author, but didn’t post her photo on this one.

Splendid business

Plenty of Tweed businesses set to benefit from four-day festival

Tweed Daily News 26 Jul 2014 By Liana Turner

THE Splendour in the Grass music festival this weekend at North Byron Parklands has delivered a welcome boost to winter accommodation rates on the Tweed.

BIG 4 North Star Holiday Resort Hastings Point marketing co-ordinator Andrew Bradley said they had almost no vacant sites.

"We're very lucky to be the biggest accommodation provider so close to the (festival) site," Mr Bradley said.

"Most people are staying three nights with us."

Mr Bradley said shuttle buses running by their door had helped attract festival goers.

"I'm sure it's all going to run very smoothly," he said.

The economic benefits are a two-way street, with many locals splurging \$149 on single-day tickets or \$355 for a three-day pass.

For Banora Point dad and daughter, Jon and Kasia Bar-

nett, the funds will be well spent as the duo rock through Splendour with their "old-school indie" and "new-gen indie" approach.

Kasia planned to see Foster the People while Dad said he would "tolerate" the music.

"I may be old, but I've seen

all the cool bands," the accountant said, reflecting on the "good old days" when he saw The Ramones and The Cure when he was a "new-gen indie" himself.

Police will be in full force, with drug-detection dogs and

INSIDE

public order and riot squad police on site.

Tweed-Byron LAC Superintendent Stuart Wilkins said police worked closely with event organisers to help festival-goers have a safe experience.

"Splendour in the Grass is the biggest winter music festival in Australia and the focus of the police operation is to make it memorable for the right reasons," Supt Wilkins said.

"We will be targeting illegal drug use and supply, underage drinking, alcohol-related violence and antisocial behaviour."

GENERATION INDIE: Kasia, 15, and dad John Barnett are going to their first Splendour in the Grass at North Byron Parklands.

Total Recall holiday on the Tweed

by [arylko](#)

A SOUTH Tweed psychology clinic has taken over 3,000 patient baseline measurements using a futuristic Russian technology.

Neurofeedback trains the brain into healthy habits using a cap with electrodes which stimulate the brain with mild electrical currents.

Patients watch aeroplanes flying on a screen or other 'reward' stimuli. The footage disappears if a patient uses an undesired part of their brain to mentally process the scene.

World renowned brain scientist Yury Kropotov from the Brain Institute of Russia was in Tweed last week spruiking the benefits of the soviet invention, which he hopes will become a staple in all psychotherapy clinics.

Professor Kropotov, a patron of the same university as Ivan Pavlov, told an audience at Twin Towns, neurofeedback has been used to successfully treat depression, ADHD, autism and anxiety.

Residents were most interested to know about Alzheimer's. They were told Neurofeedback can slow down the effects of this disease.

One resident keenly asked about Obsessive Compulsive Disorder, to which Prof Kropotov clinically responded:

"In Russia it is a very simple procedure" scientists "simply cut out" the part of the brain responsible for OCD, with an over 60% success rate in treating the condition.

In the Tweed the focus remains post traumatic stress disorder.

Clinic director Nerida Saunders and former soviet neurologist Rustam Yumash are continuing to look for subjects for an ongoing doctorate on the subject.

"People can come to the Tweed and have a neurofeedback holiday," Mrs Saunders said.

To take part in the study or to try neurofeedback for other mental health issues, contact Mind Matters on 07 5599 2220.

JULY, 2015: The documentary has time stamps of when they interviewed some of the people. July 14 is when Fiona was standing in front of her alleged grandparents' home talking about the abuse. This was all being done in July, PRIOR to her going on camera with reporters in October. They then added that clip into the beginning of the documentary before publishing it. This was all very orchestrated. Shane Nagle filmed the documentary, as Fiona calls out his name at 13:50 in part 1.

OCTOBER 23, 2015: Speaking outside the Royal Commission into Institutional Responses to Child Sexual Abuse, Fiona Barnett called on the authorities to investigate the alleged ring, which she believes is still operating. Her sidekick, Nicky Davis who used to work for SNAP (survivors network of those abused by priests), and left SNAP to work with Fiona, was by her side. <http://archive.is/7WDnE> <http://archive.is/D6PGE>

One [news network](#) was completely stunned by how many other news networks picked this up and reported on it without doing the research. The screenshots from this article are being posted here to show all of these media sources. Once you read further down you will understand why. Fiona Barnett has BIG media connections.

GEORGIE GARDNER: A woman who says she was the victim of an alleged paedophile ring operating in the 1970s has made explosive claims in Sydney today. Fiona Barnett spoke at a press conference along with members of abuse survivor group, SNAP.

FIONA BARNETT: Well, I was prostituted to paedophile parties at Parliament House, Canberra. The people involved in this elite paedophile ring included high-ranking politicians, police and judiciary.

— Channel Nine News, 23rd October, 2015

And that was just the start of it.

Barnett claimed that at least three former Australian Prime Ministers were involved and that the ring is still operating today.

And after AAP filed the story, a large number of websites picked it up ... and reported:

FIONA Barnett also claims she witnessed "hundreds of crimes" - including murder, rape, abduction and torture ...

— NT News, 23rd October, 2015

Lismore's Northern Star and Tweed Daily News also told readers she had made some even more startling allegations:

Ms Barnett recounted a story about being shown as a child what happened to "traitors" who spoke out.

She alleged she witnessed a man being tied to two tractors which drove in opposite directions, tearing him limb from limb.

— Northern Star, 23rd October, 2015

Are we beginning to have concerns about her credibility here?

Part of Barnett's reason for speaking out was to claim that this Prime Ministerial paedophile ring has been covered up by people in power.

As News.com.au reported, she had told her story many times but had always been ignored:

Ms Barnett said she had taken the allegations to multiple health professionals in the 1980s, NSW Police in 2008 and approached the Royal Commission in 2013. She said she and other victims of "VIP" perpetrators were "stonewalled" by authorities.

— News.com.au, 23rd October, 2015

Hmmm. That's surely a sign there might be no evidence for her remarkable claims.

Yet all these media outlets ran with her story, and only News.com.au saw fit to suggest it might not stack up, by including this statement from ACT Police noting:

"The matter was thoroughly investigated by ACT Policing's Operation Attest and there was no evidence to substantiate the complainant's allegations," ...

— News.com.au, 23rd October, 2015

Elsewhere, Ms Barnett's allegations were accepted pretty much uncritically by a host of newspapers and websites, including:

The Sydney Morning Herald

The Daily Telegraph

The Hobart Mercury

Adelaide's The Advertiser

And a raft of regional papers owned by Fairfax Media or by APN's Australian Regional Media.

Her claims also made headlines in the Daily Mail and in the UK's Independent newspaper, not to mention numerous radio and television stations.

We reckon they should have been treated with a lot more caution.

And a quick search on the internet confirms our doubts.

Here is Barnett writing last year about the CIA, paedophiles and Nazis:

The key to understanding organised paedophilia in Australia is the thousands of Nazi war criminals to whom our government knowingly offered asylum in this country.

— Independent Australia, 9th May, 2014

And here she is again on a site called NeonNettle in which she and a fellow victim recalled:

... witnessing child sacrifices at the hands of the CIA and the Ninth Circle Satanic Child Sacrifice Cult all trained by former Nazis ...

— Neon Nettle, 7th August, 2014

UPDATE: Fiona Barnett has contacted Media Watch to say "At no stage have I identified the 'Ninth Circle' as being responsible for my child abuse."

That story and another in September 2014 apparently quoted from Barnett's private testimony to the Child Abuse Royal Commission, in which she claimed that on her sixth birthday she had been taken to the rainforest in Kiama in NSW and drugged.

"... When I woke it was dark and I was lying naked face-up, spread-eagle on a picnic table with my hands and legs tied. Perpetrators took turns sneaking up on me".

"They carried rifles and had a pack of starving Doberman dogs. I was told a group of naked children huddled nearby were my responsibility, I was to run and hide them. Every child I failed to hide would be killed and fed to the dogs ..."

— Neon Nettle, 15th September, 2014

On that occasion, according to Fiona Barnett, several young children were shot. But their deaths went undetected.

So should the media have given prominence to her claims about paedophile Prime Ministers?

We think not.

Should they also have given credence to claims of a high-level cover up? Again the answer is no. And we think that basic checks would have led almost any media organisation to the same conclusion.

Naturally, Fiona Barnett begs to differ. She insists the child-hunting story is true and that police are also involved in the cover up, and she told Media Watch:

I have been reporting the crimes committed by VIP paedophiles including a NSW Police Commissioner, for many years. Not surprisingly, NSW Police have demonstrated a reluctance to investigate my allegations. I therefore appealed to the 'Fourth Estate', as victims do when all other avenues of justice fail them.

— Fiona Barnett, email to Media Watch, 30th October, 2015

We understand that at least two journalists have investigated Ms Barnett's allegations and decided not to publish them.

And when we asked her to back up some of her claims, she was unwilling or unable to do so.

OCTOBER 26, 2015: [Article by Alina Rylko](#), but she lists the author as “by Arylko and Alina Rylko” as though they are two different people. They are not. They are one in the same. She is covering Fiona’s story. NOTICE she refers to Fiona as **Ms.** Barnett, as though she is no longer married. In fact, multiple news sources above also refer to her as **Ms.** And why wasn’t her alleged husband standing by her side to support her while she had to face a dozen reporters? Very odd. Curious, as Fiona talks about her alleged husband as though he is still in the picture and they live together. Where/who is Jon Barnett?

Sex abuse victim inundated by calls of fellow sufferers

by arylko and Alina Rylko

26th Oct 2015 5:00 PM

BANORA Point Royal Commission witness Fiona Barnett, who claims to be the victim of a "VIP pedophile ring", said that since making her claims public on Friday she had been "inundated" with calls from other victims.

Ms Barnett, at the invitation of Survivors Network of those Abused by Priests (SNAP) told media on Friday she had reported her childhood abuse but no police investigation had taken place into those alleged to have been responsible, including a former prime minister.

Since then, Ms Barnett has been contacted by Sutherland Shire police to make a formal statement.

"I have been inundated via social media and through SNAP with victims of the VIP pedophile ring," Ms Barnett said.

"The victims are phoning, they're crying, they're thankful to me for talking on behalf of the fragile; those who are too broken and too fearful to speak."

She said it was likely another alleged victim of a high-profile person would speak publicly later this week.

Her story comes after Senator Bill Heffernan raised the allegations in Parliament last week, calling on the Royal Commission to extend its terms of reference to include the "institution of the law", as he tabled a police report containing the names of 28 prominent people, including a former prime minister, who had not been investigated.

Former Royal Commissioner James Wood has rejected claims he failed to properly investigate.

NOVEMBER 11, 2015: Alina Arylko, aka Alina Rylko, aka Alina Derevyanko, wrote an [article](#) in Tweed Daily News on **Fiona's alleged father Frank Holowczak, aka Mitek Frank Holowczak, and in this particular article: aka Frank Meczyslaw**. Again, it is published after she came out with her story. There would appear to be no articles on him prior to that date. Also notice she not only changed his entire last name in the photo versus in the article, but also changed the spelling of her own last name in the photo versus the author. And finally, you will see later in this document, that the man in this photo/article is the same man in a photo with Fiona's alleged daughter Kasia and alleged sister Emma, posted for verification purposes.

Big wait is on for promised 'world-class' public housing

by [arylko](#)

11th Nov 2015 3:26 PM

A NEW "world-class" block of housing department units, funded by the New South Wales Government, has been earmarked for Boyd St, Tweed Heads South.

The multi-million-dollar block of units, recently announced by Social Housing Minister Brad Hazzard, couldn't come soon enough for residents like **Frank Holowczak**, who has been waiting more than seven years for a home.

"The pension is not enough for me to find my own rental," Mr Holowczak said.

The 70-year-old said there were many others like him in the housing queue who had heard of the new development through case workers. A 16-unit housing block on the same road was already full, he said.

Tweed MP Geoff Provest's office said the project remained in the early stages, with construction plans yet to be made.

However, they said the area's zoning allowed for eight-storey buildings.

Tenants in an adjoining, publicly funded house, who did not wish to be named, said they had been asked to move out "ASAP" so their house could be bulldozed.

The project was announced as part of a state-wide initiative to deliver a mix of 550 social, affordable and private dwellings at Gosford, Newcastle, Tweed Heads, Seven Hills, Telopea and Liverpool.

Mr Hazzard called for interest from builders to deliver the "new generation of world-class social housing" in partnership with the private, non-government and community sectors.

OCTOBER 2016: Fiona allegedly presented at a Trauma and Dissociation conference in Seattle, USA

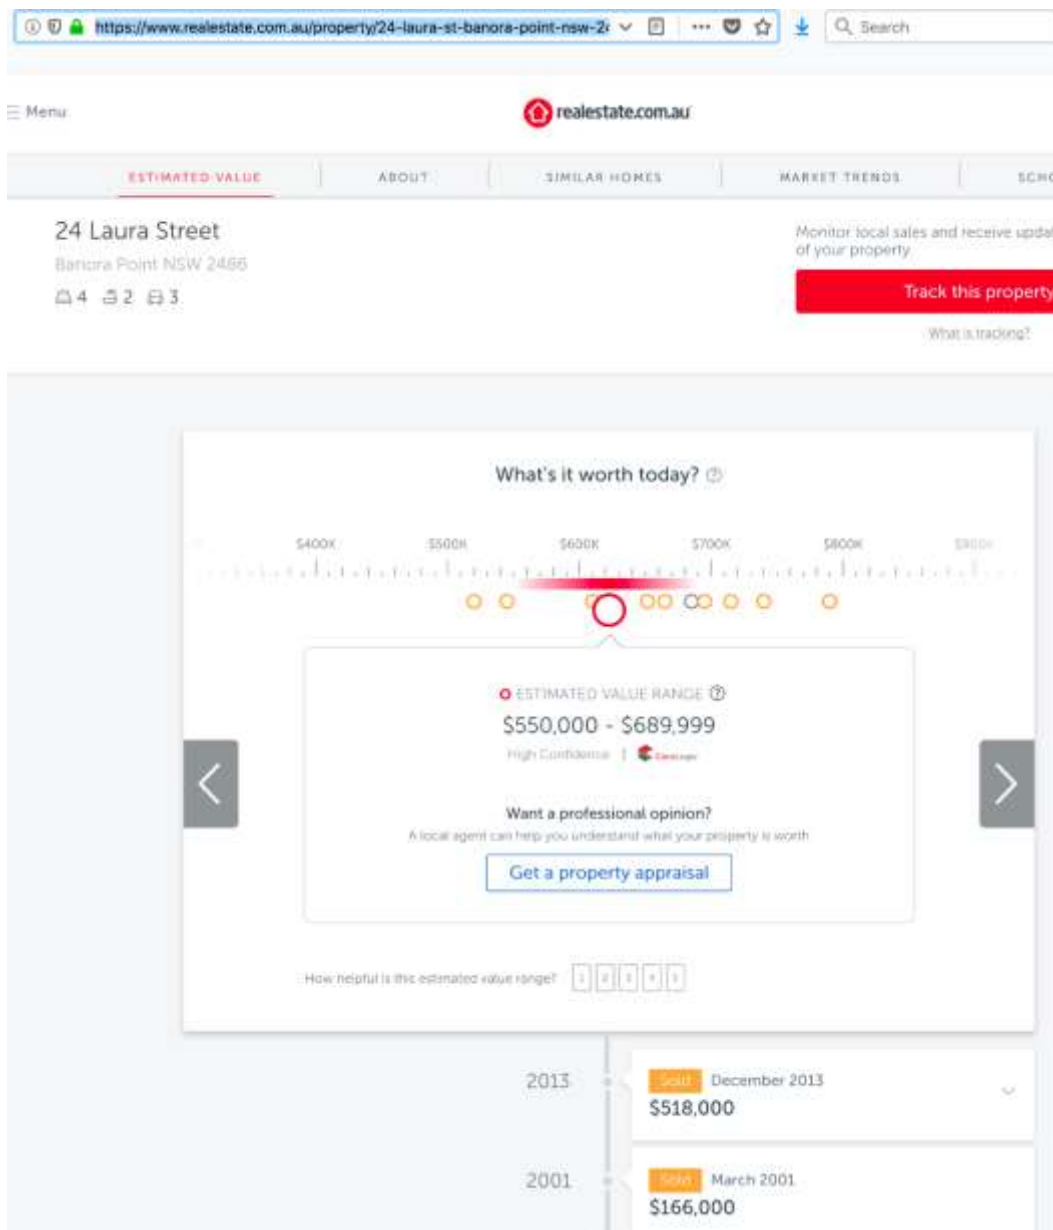

JUNE 28, 2017: Fiona sold her house at 26 Laura Street, Banora Point, NSW 2486 for \$800,000 AUD (roughly \$592,000 US). 5 bedroom, 2 bath, 2 car garage. That is a very expensive home for someone claiming REPEATEDLY to be flat broke. She now lives in Gold Coast, according to Kappy on his recent 1-month+ visit, as he stated on their periscope in October, 2018, and it is also documented on her alleged daughter Kasia's facebook profile.

[Article](#) by Alina Arylko, aka Alina Rylko, aka Alina Derevyanko (Getting the picture? It will be explained below).

24 Laura Street sold in 2013. Fiona lived there in 2014, according to this article. She then sold the home in 2017, therefore lived there from 2014–2017. There is concrete evidence of this below.

[Sold in December 2013.](#)

[Article](#) by Alina Arylko, aka Alina Rylko, aka Alina Derevyanko, from February 2014, just 2 months after the home sold. Notice Barnette is spelled with an “e” at the end. You will learn throughout this document that misspellings of names are VERY intentional by this group. This establishes Fiona lived at this house in 2014. Is it 100% conclusive? YES. Keep reading.

Traffic island planned for dangerous Banora intersection

by arylko

7th Feb 2014 7:00 AM

FOLLOWING last week's article in the Tweed Border Mail, the Tweed Shire Council has announced the installation of a traffic island at a dangerous intersection in Banora Point East.

A spokesperson said the council would address the matter raised by residents about the corner of Anderson and Laura Sts, within two weeks.

Last year on January 26, we reported an accident at the T-intersection, where a ute flipped.

In other incidents a car slammed into the back of a parked van, and in another, a car smashed through a resident's fence and almost plunged into their pool.

Jon Barnette is one of the residents who campaigned to install the raised traffic island because his house is located directly on the street corner.

Just 3 days prior to this article publishing, [another article](#) was published about a shooting by Laura Street, where they interviewed Ms. Barnett. Again, they refer to her as **Ms. Strange**, being as Jon was allegedly interviewed in that article. Both of these articles confirm Fiona Barnett lived on Laura Street. Continue on to see confirmation of the exact home she lived in, worth a lot of money.

Big game hunting rifle used in Banora Point drive-by

by LUKE MORTIMER

3rd Feb 2014 9:55 AM | Updated: 11:43 AM

Update, 11.43am: POLICE say there is no current indication this morning's Banora Point drive-by and a [fire at Byron Bay](#) are linked, despite media reports to the contrary.

A NSW Police media spokesman said at this stage police believe the incidents were isolated and not connected, but the possibility will be explored during investigations.

Police say emergency services were called to a fire at Brigantine St, Byron Bay, about 3.35am to find a building, believed to be linked to the Nomads outlaw motorcycle gang, well alight.

A crime scene was set up and the building will be forensically investigated.

Initial report, 9.55am: WHEN the crack of gunshots rang through Banora Point about 3.25am this morning, Laura St resident Fiona Barnett was startled awake.

"I woke up with a start to the first shot; I heard four very loud gunshots," Ms Barnett said.

"I belong to a recreational pistol club so I knew what I was.

"At first I thought they were shooting a .22 (long rifle) right near my yard, but I've heard (from one of the men targeted) it was a .30-30 rifle (Winchester). The bullets on those things are huge; they're about three inches long."

📷 A rifle similar to the .30-30 Winchester a witness believes was used in this morning's drive-by shooting in Banora Point. It is often loaded with large, high-powered rounds.

Picture: Wikicommons

Police are currently investigating the drive-by of a home at Anthony Ave and a car at Laura St, just around the corner.

There were no reports of injury at either location.

Ms Barnett said the male targeted in the attack saw three men driving a white Toyota Camry at the time of the shooting and believed they were involved.

"Most likely crack heads."

Ms Barnett, like Tweed Byron LAC, said the men shot at the home before moving into Laura St and taking shots at a car.

"The brother of the women whose house was shot at threw a bottle at the car," she said.

"They shot at all the doors and windows of the house first and they shot at him when he jumped into a car.

"From what I've heard they were after him, not his sister."

Ms Barnett was shocked the incident had occurred in the picturesque suburban sprawl of Banora Point.

"I'm flabbergasted as to how some young guys got a hold of a rifle like the 30-30," she said.

"It all happened in a very quiet neighbourhood.

📍 The drive-by started here, when a home at Anthony Ave, Banora Point, was targeted. A car was also shot at in Laura St a short time later.

Picture: Google

"I've had other residents come and talk with me and they all can't figure out what the heck is going on."

Ms Barnett has reported what she witnessed to officers from Tweed Byron LAC.

Tweed Police say a crime scene has been established and will be forensically examined.

If you have any information that may help police call CrimeStoppers on 1800 333 000.

It's quite a luxurious home, and even has a swimming pool and hot tub.

Let's turn our focus to a few key items that were in the home when it sold in 2017:

First item: Paintings of rocks on the wall in the family room. Study them closely.

Now flip them sideways. These are Kasia Barnett's paintings.

The image shows a screenshot of an Instagram profile for Kasia Barnett. The profile header includes her name 'kasiabarnett', a 'Follow' button, and statistics: 55 posts, 67 followers, and 71 following. Her bio identifies her as an Industrial Designer, Maker, and Artist based in Australia | Gold Coast, with contact information for email and website.

Below the bio is a grid of four posts. The first two are abstract paintings with warm tones (red, orange, brown). The third is a black and white line drawing of a person. The fourth is a colorful landscape painting with a field and mountains.

A dark overlay covers the bottom portion of the profile, showing a detailed view of the 'Rocks 1 & 2' painting. The caption for this post reads: 'praktystudio 'Rocks 1 & 2' (2011) Kasia Barnett } this piece was a playful crack with impasto medium to add texture and depth to a "flat" rendition of an organic scene.' The post has 16 likes and is dated MARCH 8.

Next Item: The beautiful piano in the corner

Now let's observe the piano behind Kappy who was playing a happy birthday song to Fiona in October of 2018, at her new house in Gold Coast. Same piano.

They now live in Gold Coast, after selling their home at 24 Laura Street for \$800,000 AUD.

Here are some facts about Gold Coast: <http://archive.is/8jDQS>

FACTS

People: 569,997

Average people per household: 2.6

Median weekly household income: \$1404

Median monthly mortgage repayments: \$1950

Median weekly rent: \$390

Whereas Fiona can be quoted in countless tweets, periscopes, and interviews, stating she is flat broke and people that ask for money are Luciferian CIA shills, she simultaneously and repeatedly continues to request people to send money to Vegan Mikey. On the October 30, 2018 periscope Fiona and Kappy did, together in Australia, at 5:50 in on the periscope, Fiona states: “If you don’t support Vegan Mikey, go fuck yourself. He’s broke and starving.”

AUGUST 8, 2017: Alina Arylko, aka Alina Rylko, aka Alina Derevyanko also wrote an [article](#) about Fiona’s alleged psychologist Nerida Saunders. She seems to know the whole gang connected with Fiona.

Futuristic brain healing: Autism clinic a first for Australia

by [arylko](#)

8th Aug 2017 8:30 AM | Updated: 12:39 PM

A TWEED Heads psychology and neuroscience clinic has opened the first Australian Centre for Autism and Neurodevelopment.

AusCan is NDIS-approved to provide services for children, from the early stages of autism, or any other neurodevelopmental diagnosis.

Therapies offered are on the cusp of world medical research and include, among many, neurofeedback.

More Stories

In neurofeedback training, a patient’s brainwaves are displayed so they can learn new ways of self-regulating their behaviour and emotions.

Neurofeedback has a wide range of applications, but Henry McDonald, 12, of Paradise Point, Qld, is seeing great results from two weekly sessions to gain self-control, says his mother Elisha McDonald.

"Henry's emotions used to run his life - he was either right up or right down - anything sad would be a catastrophe, and if something made him happy he'd bounce off the walls," she said.

"Neurofeedback has helped enormously - he is controlled in his emotional responses - and this has had a great impact, socially. We just want him to have the best life possible.

"We've been through the medicine cycle but I think that was more of a Band-Aid solution."

AusCan clinical director Nerida Saunders said there was also a growing demand for streamlined autism services.

"When a child receives a diagnosis the emotions are unfathomable," Ms Saunders said.

"This is followed by information overload in an attempt to discern the best course of action amidst the internet noise and professional advice.

"Our approach aims to relieve the stress.

"We assess each individual on their specific needs and introduce families to a range of therapy options.

"The brain is an amazing and flexible tool and there is literally no limitations on what can be achieved."

Who are the alleged Fiona Barnett family members?

She claims to have divorced parents, a husband, 2 daughters, and 6 siblings. She claims their last name was Holowczak, and was changed to Rylko when she was 15-years-old because they discovered her alleged grandfather was not her grandfather by blood, and that their real grandfather's last name is Rylko, and he lived in Poland. She claims her father Frank Holowczak, aka Mitek Frank Holowczak, aka Mitek Rylko's parents are Peter and Helena Holowczak. Note that the only family members on film in her documentary are her daughter Kasia, her alleged husband Jon, and her alleged mother Dawn Mitchell. There is a photo of her alleged father and alleged sister Emma. Below are all of the ALLEGED family members. But before getting to them, we will begin with Alina Rylko (extended family), since she has played such an integral part in pushing these stories. This way you can see how they all tie together.

Meet Alina Rylko, aka Alina Arylko, aka Alina Derevyanko.

Have we established the pattern of Alina yet? She has covered the entire Fiona family, her sister, and her psychologist, all AFTER Fiona came out with her story in 2013. Anyone researching the names will likely come across one of the family members and determine they are legit and live in this community, therefore, the entire documentary must be real. See how that works?

Alina is a journalist with strong MSM connections, who wrote and published nearly every story on Fiona and her extended family. IF in fact they are legitimately a family, and their real name is Rylko (we know it was never Holowczak), that would make Alina Derevyanko from Moscow Russia, Fiona's sister-in-law who married one of Fiona's brothers. As you will see in the following images/links, she resides in Australia where other family members of the Derevyankos reside as well. She is also friends with some of the Fiona family "Rylkos" on social media. This is a close-knit group.

Alina worked for APN from 2013 until more recently, and as of September 2018, she moved into a position as media advisor at Attwood Marshall Lawyers, where she intends to finish practical legal training by March 2019. APN News & Media is big news source with many outlets. On April 27, 2013 their Australian division replaced their CEO with Neil Monaghan who maintained the position until January 2017. Prior to 2013, there are a handful of articles you can find from her on her own [blog](#), [Brisbane Times](#), and [The Daily Telegraph](#), all from 2012. Here is a [travel piece](#) Alina wrote about Russia in 2017 for Sunshine Coast Daily as well.

Alina would appear to have two family members from Moscow, also living in Australia, based on her social media connections. According to this [article](#) in Australian Property Investor, Sergey Derevyanko is Alina's father. Sergey is a software engineer for google as of April 2018. He has been in the software engineer field, [working for](#) various companies in Sydney since 1996. He graduated from Moscow State Institute of Radio Engineering, Electronics Automation and Technology with a master's degree.

They are listed a ways down in the article, listed as “Case Study #1”.

Buying property with friends or relatives

By CAROLINE JAMES

While the Australian Bureau of Statistics (ABS) doesn't know how many residential properties are jointly purchased by blood relatives, anecdotal feedback from the property market suggests the number is steadily rising.

ABS data shows a steady decline in the number of young adults who are marrying; less than half as many 20 to 24-year-olds married in 2007 than in 1988.

There is also an Andrey Derevyanko, in which they are all connected via facebook and [LinkedIn](#). Andrey is also from Moscow and lives and works in Sydney as a business development manager in the technology industry. He also worked for google from 2012-2013, as well as several other companies.

Here's where it gets really interesting. Alina Derevyanko, aka Alina Rylko, aka Alina Arylko, is friends with [Irena Derevianko](#) on facebook. Notice the one letter "i" spelling change. Irena is also from Moscow, Russia, living in Sydney, and is also friends with Sergey and Andrey Derevyanko. She is also friends with Elena Rodionovskaya, which is Alina's contact in Russia per her own words on her [blog post](#). Guess who else she is friends with? FIONA BARNETT and Theresa Rylko. We will get to Theresa further down. Fiona is also friends with Sergey and Andrey Derevanyanko.

Theresa is married to Joseph Rylko, Fiona's alleged brother. Dawn Mitchell, as seen in Fiona's documentary, and Alina's article, is Fiona's alleged mother. [Dawn is on facebook](#), but does not display her photo. Here you will see some of her alleged children: Fiona Barnett, Em Rylko, Dale Rylko, alleged granddaughter Kasia Rae (aka Kasia Barnett), and alleged daughter-in-law [Theresa Rylko](#).

The image shows a screenshot of a Facebook profile for Dawn Mitchell. The profile header includes a circular profile picture placeholder, the name "Dawn Mitchell", and buttons for "Add Friend" and "Message". Below the header are navigation tabs for "Timeline", "About", "Friends", "Photos", and "More". A section titled "DO YOU KNOW DAWN?" contains a message: "To see what she shares with friends, send her a friend request." and an "Add Friend" button. The "Friends" section is visible, showing a list of 18 friends in a grid format. Each friend's entry includes a profile picture, the friend's name, and an "Add Friend" button. The friends listed are: Trav Mitchell, Dale Rylko (Works at Energex), Bec Wilson, Mary Heaton, Terra Rosa, Nikki Lance, Angie Mitchell (Kelvin Grove State College), Amanda Patterson, Colleen Berry, Debee Mee, Rhonda Daylight, Shane Michael Mitchell (Strength and Conditioning Coach at Method X), Em Rylko, Karen Pollock (Q Academy), Tumbulgun Rangers FC, Kasia Rae (Gold Coast, Queensland), Doc Robyn (Works at Self-employed), Fiona Barnett (Wurra Carras High School), Therese Kerr, Josh Moorman, Theresa Rylko (Murrumbidgee, New South Wales), and Cate Browne.

Fiona Barnett [claims she has 6 siblings](#) that all changed their last names on their birth certificates to Rylko from Holowczak. She began as Kate Gardiner, changed it to Fiona Barnett with the entire story based around the Holowczaks, then created an About page stating her six siblings changed their birth certificates to Rylko when she was 15-years-old. That “about page” was removed from her site but exists under a different url if one is savvy enough to find it still floating in search engines. It’s been [archived here](#). Her new “about page” doesn’t mention any of this, and is a simple “Welcome” paragraph.

This is the top portion of the old “about” page. Also note, she states that Jon is a blood relative to Toni Gardiner. Interesting choice of names, being as she began her story as “Kate Gardiner.”

About Fiona

Fiona Rae Holowczak was born October 28, 1969, in Sydney, Australia. The surname Holowczak belonged to the man her parents believed to be her paternal grandfather. When Fiona was 15 years of age, her true paternal grandfather was located in Jelenia Gora, Poland. Fiona and her six younger siblings subsequently had new birth certificates issued featuring their actual surname – Rylko.

Fiona underwent another name change after marrying Englishman Jon Barnett. The couple reside with their two exceptional children on Australia’s far northern New South Wales coast. Jon is a blood relative to Toni Gardiner, the mother of King Hussein of Jordan.

Now is it making sense as to why Alina authored so many articles on the "Fiona family unit", since Fiona hit social media with her story back in 2013, and then covered Fiona's story when she came out on the news in 2015? Alina's career in writing began with copy writing in 2012, and by July 2013, just 2 months after Fiona hit social media, Alina began working for Nine News... the same station they listed on her documentary.

Some Key Factors About Alina:

- She's been working with MSM since April 2013
- May 2013 is when Fiona first came out with her story
- She also worked a short stint at Nine News in July, 2013. Look at the text on the documentary clip below.
- She is the author of nearly every story told about Fiona and her alleged family members, as well as her alleged psychologist, in various news sources. Where she wasn't the author, she was affiliated with those news sources. Guess who else has MSM connections? Fiona's alleged psychologist's husband, as seen further down.

NOTE: Aside from her alleged husband, children, and mother, it does not appear that the alleged siblings have been involved in a public manner with this operation, and may or may not be involved behind the scenes.

Additional Actors:

Child victims advocate who left her work with SNAP to work with Fiona in getting her story out: Nicky Davis

Documentary producer: Shane Nagle

Publisher: Steve McMurray

Fiona also talks about her "research team" but never states their names

Psychologist that allegedly treated Fiona: Nerida Saunders (despite Fiona's October 30, 2018 Halloween periscope rant, where she states she has been seeing a male psychologist for 30 years.)

Alleged friend in documentary: Cate Brown

Alleged friend in documentary: Eleanor Gillard

So who are the real Holowczaks that are listed on the headstone as the REAL sons, grandchildren and even great-grandchildren – none of whom are the names from Fiona's alleged family.

IMPORTANT: DO NOT harass this family. Their parents/grandparents were hijacked by this operation, after they had died, to create the most horrific tales of them being child traffickers! The documentary didn't even get the house address right. They couldn't, because it had been torn down, so they picked a house down the street and Fiona described in great detail as to numerous events that took place in the house, garage, chook pen, and even the dog in the front yard and the fact that the same gate was still there. She even pointed out where they found her alleged grandfather Peter Holowczak hanging, and the garage in which she witnessed a child murdered. Indeed, she remembered all of this detail at 14 McAlister Avenue, 8 houses down from where the Holowczaks really lived.

These are the REAL Holowczaks:

Notice the names in bold ALL match the headstone. A couple of them have altered their last name slightly, most likely due to being harassed. They are all interconnected on facebook.

Article excerpt

Byline: Alina Rylko

PICTURE this - you are sitting in a lab chair with electrodes attached to your head while a computer maps your brain, targeting unwanted memories for erasure.

Your cognitive data will be sent to Russian scientists for analysis.

No, you are not Arnold Schwarzenegger on the set of Total Recall - you are sitting in Nerida Saunders' office in sunny Tweed Heads. Ms Saunders is a psychologist and she is treating patients with severe emotional trauma using a world-first neuroscience program as part of her PhD at Sydney University.

Her innovative study utilises Harvard University neuroscience technology and is open to residents from ages 25 to 70, with symptoms of post traumatic stress disorder, causes of which include car accidents, natural disasters, war and other violence.

She says the electric currents have the equivalent strength of a torch battery and stimulate the brain in areas of cognitive function to override stressful emotional response. ...

I know what you are thinking. Oh my gosh... Fiona was MK-Ultra'd! NO, she wasn't. She was trained in psychological warfare, manipulation tactics, increasing memory of manufactured details, acting, and how to be a professional liar. Study her for 30 minutes, and you will see this.

Let's begin with her interview statements. Why would a psychologist put forth so much effort to establish how intelligent and nearly stealth-like her client is? Why would Fiona's alleged husband do the same? Why does Fiona state this repeatedly in the form of someone else telling her this about herself? Why is IQ so important to the illuminati, as Fiona likes to say. They want you to believe they can outsmart, outwit, and outthink you.

They don't want you to question Fiona, doubt her, or disbelieve. They want you to be intimidated, in fear of asking a question, and shameful if you do since she is a "victim." They are trying to build an army of "do as I say" and "do as I do" individuals to fight their battles so they can conquer all victims and divide all advocates fighting for children. This is why, when she is questioned, she calls them out as a Luciferian skill. That calling code, brings out their personal team of trolls to hammer you, in addition to the army they've been building of people they have duped. If one persists with a line of questioning, and all of her manipulation tactics

have failed, she will block a person. Keeping all of this in mind, now read the interview by Fiona's alleged psychologist. You can read the [archived link here](#), or review the screenshots below.

Certified Sane

Interview with psychologist Nerida Saunders, 2 February 2015, by Shane Nagle

Is it your professional opinion that Fiona Rae Barnett is sane?

It is my professional opinion that Fiona Rae Barnett is sane. Fiona is also highly intelligent and has insights that are far beyond those of the average citizen. Her ability to think issues and events through and make sense of the bigger picture and where people are coming from is uncanny.

Have you recognised any contradictions in Fiona's story and memories since you have been consulting with her?

I have questioned Fiona again and again about different incidents she has reported. I have gone back to previous incidents that unravelled at earlier times in therapy and again and again her stories have been consistent. Occasionally there may be a name slip up but then she corrects it. This really makes her story more genuine and believable as far as I am concerned. No there have not been contradictions.

In addition to her cognitive assessment presented via the QEEG tests, what is your opinion as to Fiona's level of intelligence?

Fiona possesses a robust cognitive profile that is highly adaptive. Her cognition was assessed utilising the IntegNeuro and elevated scores were seen across the spectrum. To further support this she has a fast alpha peak of 11hz as noted in her QEEG indicating high intelligence.

Would you describe Fiona Barnett as being gifted in any way?

Fiona is certainly gifted in many ways. She is a brilliant writer, researcher and thinker. Her memory recall is astounding and her ability to put facts and incidents together to solve or resolve is phenomenal. She is artistic and apparently musical. She could be a brilliant teacher and a brilliant lawyer. I just hope she is arguing my case if that is ever necessary.

What do you understand about people who are gifted in some way?

Gifted people can present in many different ways. They are often highly sensitive, easily bored by the mundane aspects of life, and often brutally honest to the point of being socially questionable. They have an intensity in energy, imagination, intellect, sensitivity and emotion. They are a particularly vulnerable group, often rejected by peers due to their different tastes in life, interests etc. Different IQ levels also present with different needs, interests and sensitivities.

Is it possible that, after all this time as her therapist, Fiona's demeanour and character have beguiled you into believing her story when in fact it is not true?

Certainly this is possible but I do not believe it is the case. I am an experienced therapist with years of work in the area of trauma. I am aware that with repeated trauma that incidents can blur. What is striking about Fiona is the clarity of recollection, her consistency, and her intimate knowledge of different people involved. Her story has also been corroborated by another Victims of Crime client.

What is your opinion regarding the level of the public's knowledge of the existence of Ritual Sexual Child Abuse in Australia?

The public knowledge of RSA is almost non-existent in Australia as far as I am aware. Knowledge would be limited to abusers and abusees and people like myself working in the area. The recent publicity brought about by the Royal Commission into Sexual Abuse has certainly done a lot to increase awareness of some of what has been going on and perhaps has unwittingly prepared the public for what will come next.

And how might that level of awareness affect our attempts to share Fiona's story to the public?

See above. You will get people who are shocked, who don't want to believe and who don't want to be shaken from their cosy perches and who will object the most. You will get others who will not be surprised at all. It will certainly cause a sensation.

Is there anything else you have noticed about Fiona's character which testifies to her as being a credible witness to her version of her life's story?

When I first met Fiona she was full on. She was often loud, confronting, and intrusive. I could tell her mood from when she first walked in the door. She could be provocative, angry, sweet, intelligent, suspicious, and just the normal Fiona. Over time these aspects of her personality gradually started to integrate, but did so completely on the day before Antony Kidman's death. Since this day, Fiona has consistently been Fiona. An intelligent, vibrant, articulate human being.

Her integration was extraordinary and very humbling to witness. Her husband was also present per my request. She has been one of the most courageous people I have met in my career. She has pushed and pushed me to get through what she knew was sitting there under the surface doing push ups. I have witnessed her physically flip and move in ways that one would not deem possible. I have seen her vibrate from head to toe as she relived the horror of electrocution. I have heard her groan and scream from the depths of something so evil and foul that has been done to her as she re-experienced the traumas, through a process called EMDR. What was amazing is that after the experience the impact of that particular recall diminished in emotional intensity. No one could act this out.

Her family have also stood by her and are to be commended for their love and their belief in her. A testament to Fiona herself.

Nerida also lives on a farm with her partner, (and alpacas and goats), and loves to garden.

She writes the following about her centre she co owns with Rustam Yumash:

Our centre is focused on helping individuals reach their true potential. We measure brainwave activity as the client completes standardised tasks(Event Related Potentials) and then we compare this information to an international database, generating reports with 3D impages of the brain, indicating source localisation of problems areas. Through various methods of neuromodulation such as neurofeedback, tDCS, Cogmed, and EMDR, we are able to show the brain how to self correct through the process of neuroplasticity. The brain is such a phenomenal organ! We teach the brain how to fish, not give it fish! We have seen extraordinary changes with head injuries, autism, ADHD, Learning difficulties and also Peak Performance training for athletes.

Remember if you look after your brain, your brain will look after you.

Nerida strongly believes in the power of the individual and the ability of the individual to overcome what may seem to be insurmountable problems and regain effective control of their lives. She believes a catalyst such as a Psychologist is necessary at times for this process to be nudged along, to empower and direct towards resolution. Nerida's belief in and her acceptance of the individual are her most effective counselling tools. Her knowledge and experience come a close second.

At the bottom of her website, there is a [brain diagnostics shop](#), which offers [training](#) from the Brain Mind & Memory Institute (this is a separate company of hers from Brain Mind & Memory Centre). Advanced Training Course For Transcranial Direct Current Stimulation (tDCS)

Welcome to the advanced training for tDCS

This course is divided into three half hour sections for your convenience.

The first section covers the following: terminology, history, electrical stimulation, safety, challenges and regulatory bodies.

The second section covers the following: Mechanism of action, electrophysiology, treatment modalities, clinical studies and research.

The third section covers the device and usage, tDCS devices, comparisons, component accessories, and setup and installation.

The course is written and created by Nerida Saunders, Owner and director of the Brain, Mind and Memory Centre, and Director of Brain Care. Nerida is a past president and Fellow of The Applied Neuroscience Society of Australasia and also a founding member and Fellow of The Australian Association of Psychologists.

Nerida has utilized tDCS in her PhD research with a cohort of PTSD clients. She also uses this treatment modality extensively in her clinical practice.

Although not included in the program due to the lack of research and supporting information, further protocols are available and can be requested at neridasaunder@gmail.com.

Best wishes with the course and please contact me if you require or have further information.

▶ **Founded in 1992**

🗣️ Mission

Brain Mind & Memory Centre, previously known as Solstice-Mind Matters, has been established since 1992 by Tweed Psychologist Nerida Saunders to meet the needs of families, individuals and couples in crisis. In the last 10 years our team has developed a neuroscience based clinic with a focus on brain based therapies including Neurofeedback and other forms of non-invasive brain stimulation modalities, capable of improving brain and mind health and wellbeing.

She also founded the Brain Mind & Memory Institute, which for some reason, she doesn't link the Centre and Institute websites. One of the three professors working with the institute is Juri D. Kropotov, from Russia, winning the USSR state prize, which is the country's highest scientific award. What's curious, is that they spell his name 3 different ways on his [bio page](#): Yury, Jury, and Juri. Why is that? He has an extensive 43-year background in brain science, working in St. Petersburg, Russia, Norway, and Poland.

Alina Derevyanko, aka Alina Arylko, aka Alina Rylko is from Moscow, and wrote an article about St. Petersburg, as seen above under the section covering Alina. She also recently traveled to Norway. Could just be a coincidence. Just pointing out facts.

About Prof. Yury Kropotov

Prof. Yury Kropotov is a world renowned Neuroscientist with 43 years of dedicated work in Brain science. Yury Kropotov, PhD. has earned three doctorates: in theoretical physics, in philosophy and neurophysiology. From 1970 to 1990, he practiced at the psychiatric clinics of the Institute of Experimental Medicine and Institute of the Human Brain at the Russian Academy of Sciences in St. Petersburg.

His work with psychiatric patients included electrode implantation for neurological research, evaluation, diagnosis and therapy. For this research, in 1985 he was awarded the country's highest scientific award - the USSR State Prize.

His scientific interests are now focused on quantitative EEG and normative data bases, event-related potentials (ERPs), Neurotherapy (Neurofeedback, tDCS, DBS), QEEG/ERP markers of psychiatric and neurological disorders. His achievements include many years .

Prof. Yury Kropotov is the director of the laboratory for neurobiology of action programming at the Institute of the Human Brain (Russian Academy of Sciences) in St. Petersburg, and Professor at the Department of Psychology of the University for Science and Technology NTNU, in Trondheim , Norway. (Elsevier). He is also a visiting Professor at Krakov University , Poland. In 1992 He was a winner of the prestigious USSR State Prize, ex-president of the European Chapter of ISNR and the developer of the Mitsar-201 and 202 EEG amplifiers.

Professor Philip Morris, one of the three professors at the Brain Mind & Memory Institute, taught at Bond University during the time Fiona and Nerida went there in 2010, it would appear, based on his [own article](#) written in November 2011.

The Brain Mind & Memory Institute networks with 4 companies:
Mistar, Pinniger Clinic, HBimed, and Brain Resource.

PINNIGER CLINIC

<http://www.pinnigerclinic.com/>

- Dr. Philip Morris works there as well as being on the board of the Brain Mind & Memory Institute

Mitsar Co. Ltd (Germany & Russia)

- Och Ziff (the \$10m investor): In 2016 OZ entered into settlement agreements with the US Sec and DOJ ending a 5-yr investigation into violations of the federal corrupt practices act. \$413m fine. African subsidiary of the firm plead guilty to one count of conspiracy.

- Och Ziff (the \$10m investor): Jan, 2018 Michael Cohen, former head of OZ European operations was charged with fraud relating to activities of the company in Africa. 10 counts of fraud and conspiracy. Sec sued Cohen relating to OZ bribery scheme in the democratic republic of congo, chad and Libya, to win business for the company.

- \$60m invested to build and validate digital tools to assess, monitor, screen & train the brain at the capacity markers level

- World's largest standardized neuroscientific database – more than 600,000 people have registered

- Emil Vasilev – one of the 7 main staff there used to work at Barclays Capital as an investment banker

- 4 of the staff used to work at Monster

Brain Resources Board of Directors (Investors):

- Ajay Arora (non-executive director on the board) is currently the director of product innovation at **Netflix**. Used to be VP, product management at Imgur and for Audible, Inc. an **Amazon** company.

- Dr. Stephen Koslow BS, PhD (non-executive director): Inaugural Director of Clinical and Basic Neuroscience Research at the National Institute of Mental Health, NIH, building an outstanding multi million dollar research program including initiating the multi-Agency Human Brain Project (Extended by President Obama) and the global Neuroinformatics program.

Subsidiaries:

MyBrainSolutions, Inc. – headquartered in San Francisco, founded in 2000 by Dr. Evian Gordon

Brain Resource, Inc.

BrainNet – 501(c)(3) not-for-profit foundation – grants free access to the world's largest brain database to more than 350 academic researchers worldwide.

Other Tools of Theirs:

WebNeuro – web-based probably under Brain Resource

Treatment Prediction Research: International study to predict optimized treatment (iSPOT) – largest personalized medicine study in mental health, to predict, based on genetics or brain biomarkers, which patients may respond positively to most commonly used medications for depression and ADHD.

They created MyBrainSolutions (subsidiary) and have been commended by many for it, such as Boeing.

Used by more than 40 brand name corporations and over 100 clinics, it includes a scientifically-validated assessment and evidence-based brain health apps built from the world's first and largest integrative international brain database. This site is the first of its kind to bring together an assessment, stress reduction and resilience tools, and mindfulness meditation in one singular, elegant experience.

Brain Resource Limited – [2017 Annual Report](#)

Going back to the [Brain Mind & Memory Centre](#) for a moment, founded by Nerida Saunders, who is the clinical director - the managing director is Dr. Rustam Yumash, who is also from Russia. Perhaps Russia leads in the industry when it comes to brain science?

Dr Rustam Yumash – Managing Director

B. Med, Russia, Dip.Neurology (Russia)

Rustam is a Neurocoach, Neurofeedback Practitioner, Researcher and developer of neuroscience based products and services.

After finishing his degree in medicine, he developed his approach to Mind – Body Somatic Therapy for treating trauma and chronic tension. Rustam’s main interests are in Brain Health & Fitness. His objectives are developing and providing Neuroscience based services and products for enhancing brain performance, cognitive abilities and improved mental health.

Rustam is fluent in Russian.

Nerida has two facebook pages. She maintains one without a photo where she connects to her friends and associates, while the other page does display a photo and she connects with other associates. She befriended herself within the accounts.

DISCREPENCIES & TACTICS:

EXAMPLE:

How is it that her siblings were instructed to call Dr. Leonas Petrauskas “Dr. Mark”, the alleged owner of a clinic filled with staff that trafficked and abused children, as well as committed murder, in addition to him performing a ritual abortion on her? Is [she claiming](#) they were abused as well? Did they all pile in the car each weekend, from her mom’s house 2 hours away, to visit the alleged grandparents who child trafficked them, and mom continued to drive them back month after month, year after year?

This year, an independent documentary team began researching my child abuse experiences. These producers quickly found ample evidence to support my allegations. They discovered the identity of the man [my siblings and I were instructed to call "Dr Mark". Leonas Petrauskas \(pictured right\)](#) was the adopted son of a Lithuanian

In the same article, she references the real estate link to Antony Kidman’s home, which allowed her to recognize the rooms in which she was allegedly abused.

Dr Petrauskas attended Sydney University at the same time as another key perpetrator, Dr Antony Kidman. The documentary team located Antony Kidman's former North Sydney home at 16 William Edward St, Longueville. This matched the description I provided the NSW Psychology Board in my complaint against him. [Via realestate.com](#), I recognised the lounge room and pool in which I was sexually assaulted by Kidman and his famous stage actor friend who is still alive. The assault occurred during a post-production party held at Kidman’s house.

Same article: Here she states her researchers tracked down the woman who assisted Dr. Mark in her abortion, only she previously said that Dr. Mark’s daughter is the one who helped him. So if this were the same woman, she is claiming Dr. Mark’s daughter is the one who also lured the surfer they burned at the stake on Kurnell beach. How is this possible? She claimed in part 2 of her documentary that the woman who lured the surfer in 1977 was Dr. Mark’s nurse.

My researchers located and interviewed another perpetrator — a woman who assisted Dr Petrauskas while he performed an abortion on me. I witnessed this same woman lure, drug and murder a young male surfer at a remote Kurnell beach.

Same article: She claims it was an independent documentary team that was researching her experiences and quickly found ample evidence. Later in the article she refers to them as “HER researcher” and “MY documentary producer” and “MY documentary makers.” So which was it?

This year, [an independent documentary team](#) began researching my child abuse experiences. These producers quickly found ample evidence to support my allegations. They discovered the identity of

[My documentary producer](#) contacted the NSW Police media liaison officer and asked why police refused to take my remaining witness statements. The Detective who took my initial statements

My researchers located and interviewed another perpetrator — Petruskas while he performed an abortion on me. I witnessed

The corroborative evidence that my documentary makers continue to find in support of my allegations has been offered to the authorities. If the authorities are not interested in this evidence, perhaps the public is. My documentary, Candy Girl, is at the editing stage.

NEXT EXAMPLE:

In this post she made on David Icke's forum, going under the name Kate Gardiner, she states that Melbourne QC ripped her off, costing her \$50k.

<http://archive.is/KkoFE>

Similar to Tor Nielsen's experience, a Melbourne QC ripped me off \$50k while pretending to defend me against a private university whose staff have been accused of cult-like practises and sexual harassment of students, His sidekick mocked me and verbally abused me for talking about my childhood abuse.

Yet, here she states it was less than \$35k. That's a big discrepancy.

<http://archive.is/Ls3tt>

I paid far more for the nothing I received – \$34,611.80.

answer our question. On 14/12/11, we requested by email a full review of the costs of my whole case, which amounted to approximately \$27,000 for Madgwicks Lawyers, and \$7,700 for Aichen Chambers.

Again we experienced delayed service. Four months later, in April 2012, I finally got a letter from Madgwicks saying that they had reviewed my costs and had decided that the overall fees were fair.

In our final correspondence with Madgwicks, my husband wrote:

'Since our final meeting with Madgwicks Lawyers and Aichen Chambers, Fiona has obtained letters from both the Queensland and NSW police ministers denying any contact between the police and AHPRA. The 'police statements' can only have been fabricated by someone at AHPRA. I would have expected this to have been found out by our lawyer. We went to you looking for someone to take on the fight for Fiona and were sadly disappointed.'

I had achieved in two simple letters to two police ministers, what Madgwicks Lawyers could not in a six-month timeframe and a \$37,000 budget.

NEXT EXAMPLE:

How was she possibly tricked in her late 30's after all she'd been through, and with how "intelligent and insightful" she and so many others claim her to be?

<http://archive.is/KkoFE>

At the private university, one psychology lecturer grabbed my breast at her birthday party and tricked me into sleeping in her bed at another party; a female law lecturer offered my piano tuner's 18yo daughter sex for good grades; a 50 yo law lecturer offered a 17 yo scholarship student sex for good grades; the pro-vice chancellor sexually harassed a male student and offered him a tutor position in exchange for sex. This student distributed pamphlet in campus accusing the private uni hierarchy of engaging in bizarre cult-like practises.

<http://archive.li/6dz8w>

Katarina Fritzon's sexual interest in me began to register after the night she invited me to her home for wine and cheese. That night she initiated a discussion about women's breasts, and she described mine as "magnificent." But still that wasn't enough to alarm me.

It certainly perplexed me when Katarina Fritzon grabbed my breast at her birthday party at a noisy night club. She was sitting next to her new boyfriend when it happened. I leaned over her other side to talk to her above the loud music when she suddenly grabbed my breast in a sexual manner. But I later dismissed this as perhaps alcohol inspired on her part.

Then in 2007, Katarina Fritzon invited me to a student party at her home. This was attended by her forensic psychology masters students. She told me that loads of students were sleeping. I asked her whether I needed to bring my sleeping bag and pillow, but she told me not too because there was plenty of bedding being provided to students. So, I just rocked up.

Following a night of drinking and playing sexual disclosure spin-the-bottle with students, all but three of us students went home. Two 'open-minded' students slept together in the spare bedroom. Then I realised there were no other beds. Katarina Fritzon then offered me her uncomfortable couch – or I could share her large bed. I was over the limit and couldn't drive the 35 minute drive home – but not blind drunk or the like. And it was too late to get my husband to wake the kids and drive to collect me. So, I chose to share the bed.

In the middle of the night, after I fell asleep, I awoke to being suffocated. Katarina Fritzon and her student were on top of me, suffocating me with a pillow. This triggered me to dissociate. Katarina Fritzon then proceeded to rape me in her bed.

All the while, her alleged psychologist makes this very clear:

It is my professional opinion that Fiona Rae Barnett is sane. Fiona is also highly intelligent and has insights that are far beyond those of the average citizen. Her ability to think issues and events through and make sense of the bigger picture and where people are coming from is uncanny.

NEXT EXAMPLE:

This is a drawing Fiona allegedly produced and then posted to her website. She is pointing out how “high IQ’s” are a big thing with the illuminati. Yet, on her old ([archived](#)) about page that no longer exists, she again makes it a point to show just how highly intelligent she is. This is a pattern throughout all of her platforms, and by all of those involved with pushing her narrative.... to impress upon the people just how intelligent and far beyond the average human being, she truly is.

No – Fiona is ‘not normal.’ Comprehensive testing has consistently shown her cognitive ability to fall within the far right tail on the normal distribution curve.

Her brain has unusual physical structure and function; it is denser and more interconnected. This permits Fiona to perceive patterns and relationships between seemingly unrelated bits of information. It allows her to think in a highly abstract and unconventional manner, to predict human reactions long before they happen, and to notice things others simply don’t. This unique capacity tends to unnerve observers, when it is simply the product of an unusually fast brain.

NEXT EXAMPLE:

John Holowczak worked at the Wollongong Council, and is likely the man she is referring to as having “viciously defamed her in an email and voice message”, which is likely why she won’t mention his name or show that email. She used the response of another councilor and spun it to work to her advantage in order to continue carrying out her narrative. Even if this wasn’t John, who coincidentally worked there, the fact of the matter is, she won’t show the proof of the person who defamed her, only a response from someone else who is telling her it is a private matter between them, and he clearly doesn’t wish to get involved. So no one really knows what this was about at all. She simply built a story around it. She took this email from a government office in order to utilize it as “evidence” – a deceptive manipulation tactic. One she uses often. People get caught up in her narratives, while overlooking the details, which always lack the proof. She provides “snippets”... just enough to twist a story of emotion to dupe people. Classic manipulation tactics.

Wollongong Council jumps on the bandwagon

Following the publication of my first article regarding a northern NSW paedophile ring, I received several threats. The most concerning threat came from a Wollongong City Council long-term employee. This man viciously defamed me in an email and a voice message left on the phone of the editor of this publication.

The email was sent via a Wollongong City Council email site and it featured the Wollongong City Council insignia.

The message concluded:

“I will not let this issue go.”

Allegation. Doesn't show proof of email. Instead, posts a response from someone else, creating the narrative she wants one to believe.

I formally complained to Wollongong City Council about their representative’s actions and abuse of government resources.

In response, one Wollongong councillor wrote to me:

‘...given the nature of the issue most human beings would find it difficult not to react [to my published news article about a northern NSW paedophile ring] whenever the matter is raised.’

Ms Barnett,

I am unsure what this has to do with us. It is clearly a private matter. If a council officer is talking on a private issue that is his or her call and given the nature of the issue most human beings would find it difficult not to react whenever the matter was raised. I will not enter into any more correspondence on what is a private matter.

HOW IT WORKS

If you review all of her articles, you will see that she uses other people's stories throughout, so as to bring about emotion, and bolster her own story. Once she has invoked the necessary emotions, she then delivers tidbits of her own victimhood, with an occasional document to show she filed a complaint about said experience. This is her way of providing "evidence", only it's not actual evidence. She twists narratives, and leaves out actual proof, while stating that what she is posting is some element of proof. **READ BETWEEN THE LINES.** Not only has she (they) exposed victims, pushing them back into hiding, but they go after journalists and advocates fighting against child trafficking. They have hacked accounts, posted misleading information, and built stories around fabrications. They manufacture psychological warfare, while preying on emotions, and spinning 10% of truth into a shit storm. **LEARN THEIR PLAYBOOK. YOU SHOULD KNOW IT BY NOW.** These are deep state tactics that have been used for decades.

They then take to social media and advocate against child trafficking, publishing stories in the news, as though they are raising awareness. Technically, in some cases they are, but unfortunately, those moments of truth are few and far between. It's intentionally designed this way, to earn your trust, so you believe every word she states. If she tells you not to believe a victim, you don't. If she tells you not to believe a journalist, you don't. If she tells you not to believe an advocator fighting for children, you don't. If she tells you to attack those "shills", you do. They have been building an army of "do as I say" and "do as I do" for a very long time now. The goal: create cognitive dissonance so people don't know what's truth or not, who to believe or not, who to trust, all while creating division, chaos, and attacks on both victims and those truly trying to help victims. These likely are not their only goals.

Once she got her story out, and her MSM connections pushed it to go viral, she then shifted to covering other victims stories, exposing victims that didn't wish to be exposed, and spends the majority of her time attacking those fighting for children.

They have used a dead couple to manufacture a line of stories that span 16 years of her childhood. They relived the scene in her documentary, in front of a house that is 8 houses away from where the Holowczaks actually lived. They fabricated her birth card to include the name Holowczak. They have lied about her finances, while she lived in an \$800,000 home. They are deeply connected with people in the MSM, film-making, computer engineering industries, not to mention oodles of brain scientists and physicians. They very strategically orchestrated the timing of all of this, likely going back nearly a decade. **THIS IS AN OPERATION.** She is not acting alone in this.

ANOTHER NEWS SOURCE STRONGLY PROMOTING HER STORIES

Independent Australia Articles:

Left wing news source promoting Open Democracy and others, gave her the platform to post all of her articles, as well as premiere her documentary. In addition, they make a false claim that they were provided documents or evidence to backup Fiona's stories. They go on to promote her articles via twitter as well. **This all began in February, 2014.**

That was a lot of information, in a very spread-out timeline, so just in case you missed all of her grandiose claims, here is a big chunk of SOME of them in a single list:

SUMMARY OF MANY OF HER STORIES PULLED STRAIGHT FROM HER OWN ARTICLES:

- Raped by a US President (Nixon 1913-1994 / Pres 69-74) at RAAF Fairbairne military airport, Canberra.
- Raped by 3 Australian Prime Ministers
- Raped by the creator of MK-Ultra – John Gittinger
- Raped by Nicole Kidman's father who was a Gittinger asset
- Raped by famous Rev Billy Graham
- Raped by Australian Senior Politician
- Raped by Ted Turner at Disneyland Party
- Raped by Col. Michael Aquino (at Dulce military base)
- Raped by John Overton (Australia's top military physician)
- Raped in front of numerous police officers, politicians and priests
- Raped by step-grandfather and grandmother from 22 months old, and they trafficked her to many
- Raped by Prime Minister Gough Whitlam & his lover Governor General John Kerr at Parliament House
- Raped by Prime Minister Bob Hawke, at 5 years old, in a zucchini patch, at a BBQ, in a suburban Canberra backyard.
- Raped by actor Bruce Spence at Bathurst City Hall when 15
- Raped by Shakespearean actor John Bell in the company of Antony Kidman on eve of 15th birthday. She states, at Kidman's house, he tied her to a chair and beat her in front of Nicole Kidman and Nicole smirked.
- Unwilling member of a coven that involved drugs, guns and sex trafficking
- Her neighbor has continuously intimidated and threatened her family and children, and poisoned her dog in Wollongong.
- Assaulted by Professors at Bond University in her 30's
- Given abortion by Leonas Petrauskas (Dr. Mark) beneath Engadine BoysTown (dead now)
- Was put through full military training and MKUltra as a child at age 6 at Holsworthy, and finished under Aquino in the US at age 14
- Flown to Bohemian Grove by crate where she was gassed and raped by Rev. Bill Graham
- Witnessed 10 children raped and murdered in Bathurst in 85'
- Witness a mother be murdered, child cut from woman, drinking and eating of child blood/body, a row of hypnotized children be decapitated, on a stage, all in the same night, while she apparently watched.
- Was taken to woods in Australia numerous times, was hunted, and watched children murdered during satanic rituals. Supposedly were buried there as well.
- Witnessed & subjected to: child abductions, drugging, sexual assault, torture, orgies, bestiality, necrophilia, satanic rituals, murder, hypnosis, drugs, gassed,
- Subjected to rape, torture, electrocution by cattle prod type instruments at Holsworthy Army Base & Lucas Heights nuclear reactor for the Jason Project, by Gittinger and Dr. Antony Kidman with approval from Australian gov. Supposedly happened from 1975-1980
- Says Lucas Heights is just like Pine Gap... CIA facilities where the Jason Project was conducted. Both facilities built by same group with statue of Dagon inside, and underground facilities.
- She has seen the underground railroad that connects major cities in Australia to Pine Gap, Lucas Heights/Holsworthy.
- Witnessed a partial skewered body on a pole be burned alive for Moloch, with cannibalism at Caltex Oil Refinery at Kurnell AND again on Kurnell Beach.
- She had a surrogate pedo mother from age 5-14 named Grande Dame Veronica who was her tutor and mentor. She opted to be sacrificed at a young age, ritually murdered on the altar at St. Mary's Cathedral in Sydney City, because she was a victim forced to turned perpetrator. Supposedly lived at private living quarters at Sancta Sophia College at Sydney University.
- 1980: Witnessed Queen Elizabeth preside over a Luciferian ritual at the main Church of England Cathedral in Sydney when I was 11 years old.

NOTE: Nearly every person she has accused, including her alleged (now debunked) grandparents, she accused after they died.

Documentary: Her documentary is split into Part 1 and Part 2. Numerous YouTuber's have reposted it, so it's quite easy to find, after the Fiona Barnett operation dismantles all of their social media platforms, as well as the website.

THIS IS AN OPERATION

Fiona Barnett is NOT insane, batshit crazy, or MK-Ultra'd, as some conclude. Nor is this a family endeavor to scam people. This is an operation with many people involved.

What are the odds that all of these people connected to the MSM, google, computer technology, and brain science are all from Russia, and coincidentally are the ones instrumental in pushing her story? That part is very strange.

Some of their intentions are:

- They expose victims personal information, causing trauma and fear to the victims so they stop speaking out.
- They discredit victims as well, while convincing others they are “fake”.
- They have an army of shills to attack journalists and others advocating to put a stop to child sex trafficking and abuse.
- They create chaos and division, but mostly total cognitive dissonance so people don't know what to believe is going on in this world.
- They are targeting many people in the US, and likely other countries as well.
- They have hacked people's accounts, altered information, created screenshots, and posted it to appear as “reality” in order to take people down. They stop at nothing to take those down that are promoting truth.
- They join in on some truths of events happening as it pertains to child abuse and trafficking so as to come across as legit, to earn people's trust.
- They rally people to build an army so they can “do as they say” and “do as they do”. They then send that army to attack those they are trying to discredit and take down, including true victims.
- They are running a dangerous game and likely have many more ulterior motives.

This is an operation that is operating out of Australia with influencers from Russia, and possible ties to Poland, Norway, and the UK. This is psychological warfare.

EXPOSE THIS OPERATION.

THIS HAS BEEN ESTABLISHED:

- Peter and Helena Holowczak have no relation to Fiona Barnett. **This one piece of evidence alone discounts EVERYTHING she has ever claimed**, being as they were the ones who were allegedly driving her to these locations to be trafficked and/or others would pick her up from their home. They are central to all of her stories. Without them, she could not have been in Engadine, since her mom allegedly lived in Budgewoi NSW, 2 full hours away, where Fiona claimed to have lived.
- **14 McAlister Ave. was NOT the Holowczak's residence.** They lived 8 houses away from where Fiona filmed her documentary, vividly detailing multiple experiences that happened in that home, and showing 100% recognition to the house at 14 McAlister Ave., when in fact, the Holowczak's lived at 30 McAlister Ave. Watch the documentary.
- The entire Holowczak family is a separate family, with no relation to the Rylkos.
- Fiona was a member of a theater for acting that sent out newsletters for auditions
- Fiona attended Bond University in 2010 at the same time her alleged psychologist Nerida Saunders did, both taking psychology related courses. And, quite possibly at the same time, one of the professors who works with Nerida at the Brain Mind & Memory Institute, was working at Bond University as well.
- This was all very strategically orchestrated, likely going back nearly a decade, to where they produced the documentary in July 2015, then waited until October to put it out, so as to add the clip of her in front of reporters, in order to beef up legitimacy.
- Alina Derevyanko, aka Alina Arylko, aka Alina Rylko would appear to be Fiona's sister-in-law, and is the one that has pushed nearly every story about her immediate family members, sister, psychologist, and her breaking stories when she came out on television in 2015. All of these individuals were covered in Alina's stories AFTER Fiona came out with her stories on social media in May 2013.
- Nerida Saunders and Alina Rylko both have a lot of connections to Russia.
- The 2 Derevyankos related to Alina are both in computer engineering and technology, and both worked at google at one point. They are also both from Moscow.
- Nerida had a brain laboratory with equipment to memorize details.
- Nerida's husband has a lot of connections with MSM and is a cameraman who works at a film college.
- Fiona Barnett uses psychological warfare and extreme manipulation tactics, as seen in examples above. She has an army of trolls that assist her from behind the scenes, as well as people she has managed to dupe.
- Fiona's stories all replicate those of actual victims, and she selects her perpetrators that are already dead, in almost every case.

THIS is an operation. She is not solo. There are many bad actors involved.

THIS OPERATION ENDS NOW! GOVERNMENT HAS EYES ON IT.
